

Screen & insect netting solutions that suit your greenhouse

Built on
experience,
Made for
success

Your partner in effective screen systems

At Luiten Greenhouses, we combine craftsmanship with flexibility to deliver customised screen & insect netting solutions that fully meet your needs. Our team of experienced professionals ensure that every project runs smoothly and on schedule. With our efficient approach and attention to detail, we guarantee high-quality results you can rely on.

We stand out through:

- Durable products: our systems are designed to last
- Outstanding service: you can count on quick and personal support
- Customised horticultural solutions: always tailored to your specific requirements
- One-on-one communication: clear and concise channels of communication to ensure seamless collaboration

Our specialities

We offer a wide range of solutions, including:

- Screen systems: from blackout to light reduction, energy screens and tailor-made applications
- Proven drive systems: cable drive systems, pull/push systems and more
- Roof and gable solutions: roll screens, twin screens and roof roll screens.
- Flexible installations: single, double, or multiple systems and special options such as slope-flat-slope screens and custom-made solutions.
- Insect netting: for glass and foil greenhouses

Delivery options

We deliver our solutions based on one of the following three options:

- Materials delivery: Everything you need, quickly available
- Materials with supervision: delivery including support from an experienced supervisor
- Complete system setup: full service with delivery and installation of the systems

By choosing Luiten Greenhouses, you are opting for a partner who understands your project and will take care of it down to the last detail. Together we will realise sustainable, effective and efficient solutions for your greenhouse.
